

SEAMLESS, CLEAN, CHEMICAL-RESISTANT FLOOR SOLUTIONS
FOR BATTERY MANUFACTURING FACILITIES

STONHARD[®]

MANUFACTURER AND INSTALLER OF SEAMLESS FLOORS, WALLS AND LININGS

Let Stonhard be your battery manufacturing solutions partner, advocating for your facility with floors that protect against contamination, support operations and production and meet your schedules and deadlines. With more than a century of experience in manufacturing and installing seamless floors, Stonhard has consistently demonstrated the ability to deliver durable, reliable, and safe products. We're committed to our relationship with you, meeting your deadlines and upholding your high standards.

High-performance products, local and single point of contact, complete project management and all with a warranty on both products and installation.

The first step on the path for Stonhard was to understand what battery manufacturers needed and identify your priorities to provide exact solutions. Stonhard treats every market individually with tailored solutions for every area of your facility.

Prevent vapor transmission in clean and dry rooms.

Stonhard moisture mitigation systems establish a reliable concrete vapor barrier that contributes to the overall airtight sealing of these environments.

Protecting your battery manufacturing, clean and dry room areas.

Stonhard seamless, high-performance floors minimize dust and are extremely easy to maintain, meeting the many requirements for these critical areas.

Even small amounts of moisture in areas like dry rooms can damage products.

Stonhard has moisture control systems that limit moisture drive or hydrostatic pressure from new concrete to areas with extremely low humidity.

ESD flooring systems prevent damage and injury from electrostatic discharge.

Stonhard offers several flooring options with ESD protection.

Floors and linings that are NMP-resistant keep manufacturing environments safer and will last longer.

Stonhard offers NMP-resistant flooring and lining systems with unparalleled chemical resistance. They defend against destructive organic solvents, providing you long-term solutions.

Textures and finishes not only provide improved design but safety too.

Stonhard provides options in finishes, colors, and textures to help prevent injuries and improve aesthetics.

GAME-CHANGING FLOOR AND LINING SOLUTIONS

Clean Rooms
Dry Rooms

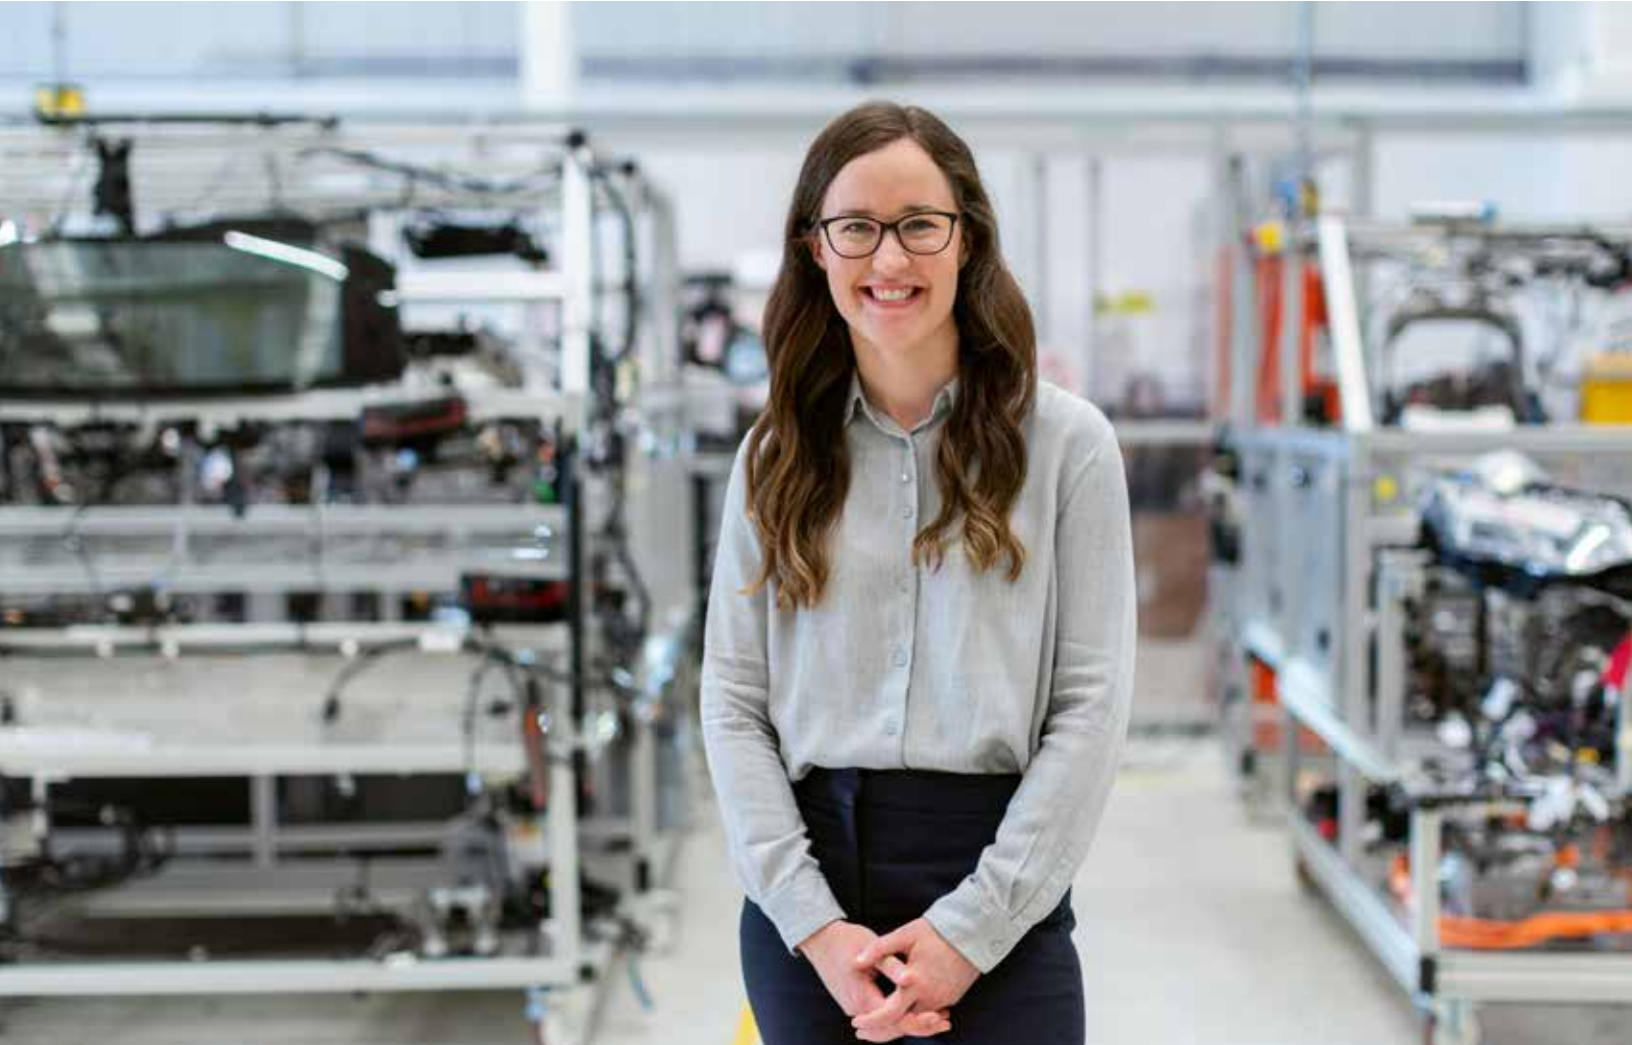

Raw Materials Storage
Chemical Storage
Cell Storage

Module & Electrode Assembly
Testing Areas

Find floor systems for all the other areas in your facility too -- mechanical rooms, locker rooms, break rooms, lobbies, and offices. We have different formulations tailored to your spaces in a broad range of finishes, colors and textures.

THE STONHARD DIFFERENCE

Design support, project management, global account program, one point of contact, consistent solutions and installations no matter where you are in the world.
