

Packaging Company Successfully Leverages Stonhard Solutions

Products Used: Stonclad® GS • Stonkote®HT4

Application Area: Factory floor

PROBLEM

A major manufacturing company in Chieti, Italy encountered significant operational challenges due to inadequate flooring in its expansive 108,000 sq. ft. facility. Without the protection of a resinous floor, the company faced frequent machinery breakdowns and operational inefficiencies. The factory's concrete floor was unable to withstand rigorous demands including exposure to corrosive substances like oils. Seeking a long-term solution, the company turned to Stonhard.

SOLUTION

Stonhard proposed a comprehensive flooring solution tailored to the specific needs of the factory. This included Stonclad GS, a durable, resinous flooring system resistant to corrosive chemicals and Stonkote HT4, a protective topcoat that improves chemical protection and increases abrasion resistance and cleanability. In addition, texture for slip resistance aids in a safer work environment.

Stonhard's customized flooring solutions enhanced operations by preventing damage from corrosive oil spills, minimizing downtime, and improving workplace safety, resulting in a highly satisfied customer.

DESIGN ELEMENTS

Seamless epoxy flooring with recycled glass aggregate
Seamless urethane flooring with decorative flake

OUR CERTIFICATIONS & MEMBERSHIPS

Stonhard products for food manufacturers are certified food safe by HACCP International. Stonhard is a member of the U.S. Green Building Council and is on the Manufacturer Advisory Panel for the HPD Collaborative.

THE STONHARD DIFFERENCE

Stonhard is the unprecedented world leader in manufacturing and installing high-performance seamless, resinous floor, wall, and lining systems. With more than a century of experience, Stonhard provides its customers with a single-source warranty covering both products and installation.
